DESKTOP PAGING STATIONS

MPAGE16

MPAGE16 is a digital paging station for the MIMO88. It features 21 touch-sensitive keys that, together with the MIMO88 hardware, allow for an easy, flexible and user-friendly configuration of a paging system that can coexist with other MIMO88 functions and with other control hardware and/or software control systems.

Key features

- 16 zone selection keys
- SELECT ALL, CLEAR and PAGE keys
- Two user-defined functions keys (for recalling presets, activating GPOs, etc.)
- Gooseneck integrated microphone
- Several MPAGE16 or software (virtual) paging stations can work simultaneously (priorities and zones availability is managed by the MIMO88 software setup)

MPAGE4

MPAGE4 is the 4-zone desktop paging station for the MIMO54 / DAM614, allowing for real-time paging in addition to all the rest of features.

Key features

- 4 zone selection keys
- SELECT ALL, and PAGE keys
- Selectable chime melody
- Gooseneck microphone

MPAGE1

MPAGE1 is a 1-zone desktop paging station, compatible with any device including a phantom-powered microphone input (SAM series, COMPACT series, MIMO54 /DAM614, MIMO88, CA series, HMA series, etc.).

Key features

- 1 zone paging station
- PAGE key
- "PAGE ACTIVE" trigger port (GPO), for its connection to external devices
- Gooseneck microphone
